Glossaries Language Module: glossaries-estonian

Kristian Kankainen Based on glossaries-*finnish* by Tuomas Välimäki

version 1.0 (2019-02-01)

This language module simply needs to be installed. The glossaries package will automatically load it if required.

1 The Code

1.1 glossaries-estonian-ascii.ldf

This is unlikely to occur, since if polyglossia has been loaded then the glossaries-estonianutf8.ldf file should've been loaded instead.
